ITIP UPDATE 2011

Magister Lucentinus/Ilustre Colegio de abogados de Alicante

Intellectual Property and Information Technology Law is in continuous change. As a consequence of this, practitioners are obliged to constantly update their knowledge. This task is not easy due to the usual huge work load that they have to deal with in their daily routine. ITIP UPDATE aims to help practitioners on the continuing education. This year, ITIP UPDATE will consist on two one-day seminars focused on two particular topics. The first one (“Emerging Topics in Copyright Law” June 3rd) includes three conferences on particular aspects of copyright law and a round table to discuss the legal aspects of free open source software. The second (“Delitos informáticos”, June 7th) aims to provide practitioners a general approach to this category of crimes. Speakers for this second seminar include scholars, a legal practitioner, a representative from the Police and computer experts.

Venue: 3rd June: Salón Benacantil de la Cámara de comercio de Alicante (C/ Cervantes 3, Alicante)
