(Waiver of patent right, etc.)

Article 97 (1) Where there is an exclusive licensee, pledgee or non-exclusive licensee as provided in Article 35(1), 77(4) or 78(1), a patentee may waive the patent right, only where the consent of the said exclusive licensee, pledgee or non-exclusive licensee is obtained.

(2) Where there is a pledgee or non-exclusive licensee as provided in Article 77(4), an exclusive licensee may waive the exclusive license, only where the consent of the said pledgee or non-exclusive licensee is obtained.

(3) Where there is a pledgee, a non-exclusive licensee may waive the non-exclusive license, only where the consent of the said pledgee is obtained.

(Effect of registration)

Article 98 (1) The following matters must be registered to take effect:

- (i) the transfer (except for a transfer arising from general succession including inheritance), lapse due to waiver and restriction on disposition of a patent right;
- (ii) the grant, transfer (except for a transfer arising from general succession including inheritance), amendment, lapse (except for a lapse arising from a merger or a lapse of the patent right) or restriction on disposition of an exclusive license; and
- (iii) the establishment, transfer (except for a transfer arising from general succession including inheritance), amendment, lapse (except for a lapse arising from a merger or extinguishment of credit secured thereby) or restriction on disposition of a right of pledge of a patent right or exclusive license.

(2) Matters of general succession including inheritance under the preceding paragraph shall be notified to the Commissioner of the Patent Office without delay.

Article 99 (1) When a non-exclusive license is registered, the non-exclusive license shall have effect on any person who subsequently acquires the patentee or the exclusive licensee, or the exclusive license on the patent right.

(2) A non-exclusive license under Article 35(1), 79, 80(1), 81, 82(1) or 176 shall have effect as provided in the preceding paragraph without being registered.

(3) The transfer, modification, lapse or restriction on disposition of a non-exclusive license, or the establishment, transfer, amendment, lapse or restriction on disposition of a right of pledge on a non-exclusive license shall have no effect on any third party unless registered.

Section 2 Infringement of rights

(Right to seek injunction)

Article 100 (1) A patentee or exclusive licensee may demand a person who infringes or is likely to infringe the patent right or exclusive license to stop or prevent such infringement.

(2) In making a demand under the preceding paragraph, the patentee or exclusive licensee may demand measures necessary for the prevention of such infringement including the disposal of products constituting such act of infringement (including, in the case of a patented invention of a process of producing products, products produced by the act of infringement; the same shall apply in Article 102(1)) and the removal of facilities used for the act of infringement.

(Acts Deemed to constitute infringement)

Article 101 The following acts shall be deemed to constitute infringement of a patent right or an exclusive license:

(i) where a patent has been granted for an invention of a product, acts of producing, assigning, etc., importing or offering for assignment, etc. any product to be used exclusively for the producing of the said product as a business;

(ii) where a patent has been granted for an invention of a product, acts of producing, assigning, etc., importing or offering for assignment, etc. any product (excluding those widely distributed within Japan) to be used for the producing of the said product and indispensable for the resolution of the problem by the said invention as a business, knowing that the said invention is a patented invention and the said product is used for the working of the invention;

(iii) where a patent has been granted for an invention of a product, acts of possessing the said product for the purpose of assigning, etc. or exporting it as a business;

(iv) where a patent has been granted for an invention of a process, acts of producing, assigning, etc., importing or offering for assignment, etc. any product to be used exclusively for the use of the said process as a business; and

(v) where a patent has been granted for an invention of a process, acts of producing, assigning, etc., importing or offering for assignment, etc. any product (excluding those widely distributed within Japan) to be used for the use of the said process and indispensable for the resolution of the problem by the said invention, knowing that the said invention is a patented invention and the said product is used for the working of the invention as a business;

(vi) where a patent has been granted for an invention of a process of producing a product, acts of possessing the product produced by the said process for the purpose of assigning, etc. or exporting it as a business.

(Presumption of Amount of Damage, etc.)

Article 102 (1) Where a patentee or an exclusive licensee claims against an infringer compensation for damage sustained as a result of the intentional or negligent infringement of the patent right or exclusive license, and the infringer assigned articles that composed the act of infringement, the amount of damage sustained by the patentee or the exclusive licensee may be presumed to be the amount of profit per unit of articles which would have been sold by the patentee or the exclusive licensee if there had been

no such act of infringement, multiplied by the quantity (hereinafter referred to in this paragraph as the "assigned quantity") of articles assigned by the infringer, the maximum of which shall be the amount attainable by the patentee or the exclusive licensee in light of the capability of the patentee or the exclusive licensee to work such articles; provided, however, that if any circumstances exist under which the patentee or the exclusive licensee would have been unable to sell the assigned quantity in whole or in part, the amount calculated as the number of articles not able to be sold due to such circumstances shall be deducted.

(2) Where a patentee or an exclusive licensee claims against an infringer compensation for damage sustained as a result of the intentional or negligent infringement of the patent right or exclusive license, and the infringer earned profits from the act of infringement, the amount of profits earned by the infringer shall be presumed to be the amount of damage sustained by the patentee or exclusive licensee.

(3) A patentee or an exclusive licensee may claim against an infringer compensation for damage sustained as a result of the intentional or negligent infringement of the patent right or exclusive license, by regarding the amount the patentee or exclusive licensee would have been entitled to receive for the working of the patented invention as the amount of damage sustained.

(4) The preceding paragraphs shall not prevent any relevant party from claiming compensation for damage in an amount exceeding the amount provided for therein. In such a case, where the infringer committed the infringement of the patent right or exclusive license without intent or gross negligence, the court may take these circumstances into consideration in determining the amount of damages.

(Presumption of negligence)

Article 103 An infringer of a patent right or exclusive license of another person is presumed negligent in the commission of the said act of infringement.

(Presumption of (patented) producing process)

Article 104 Where the invention of a process of producing a product has been patented and the product was not publicly known in Japan prior to the filing of the patent application, a product identical with such product shall be presumed to have been produced by the patented process.

(Obligation to clarify the specific conditions (of infringement))

Article 104-2 In litigation concerning the infringement of a patent right or an exclusive license, in order to deny the specific conditions of an article or process that a patentee or an exclusive licensee claims as one that composed an act of infringement, the adverse party shall clarify the specific conditions of his/her act; provided, however, that this shall not apply where there exist reasonable grounds preventing the adverse party from so doing.

(Restriction on exercise of rights of patentee, etc.)

Article 104-3 (1) Where, in litigation concerning the infringement of a patent right or an exclusive license, the said patent is recognized as one that should be invalidated by a trial for patent invalidation, the rights of the patentee or exclusive licensee may not be exercised against the adverse party.

(2) Where the court considers that the materials used for an allegation or defense under the preceding paragraph are submitted for the purpose of unreasonably delaying the proceedings, the court may, upon a motion or ex officio, render a ruling to the effect that the allegation or the defence is to be dismissed.

(Production of documents, etc.)

Article 105 (1) In litigation concerning the infringement of a patent right or exclusive license, the court may, upon a motion of a party, order the other party to produce documents that are required to prove the said act of infringement or to calculate the damage arising from the said act of infringement; provided, however, that this shall not apply where there are reasonable grounds for the person possessing the documents to refuse production of the said documents.

(2) When the court finds it necessary for determining whether or not there are reasonable grounds as provided in the proviso to the preceding paragraph, the court may cause the person possessing the documents to present such documents. In such a case, no person may request the disclosure of the documents presented.

(3) In the case of the preceding paragraph, where the court finds it necessary to hear opinions by disclosing the documents as provided in the latter sentence of the preceding paragraph to make a decision concerning the existence of reasonable grounds as provided in the proviso to paragraph (1), the court may disclose the documents to the parties, etc. (the parties (or, in the case of juridical persons, their representatives), their

representatives (excluding attorneys and assistant), employees and other workers, the same shall apply hereinafter), attorneys or assistant.

(4) The preceding three paragraphs shall apply mutatis mutandis to the presentation of the subject-matter of the inspection that is required to prove the act of infringement in litigation concerning the infringement of a patent right or exclusive license.

(Expert opinion for calculation of damages)

Article 105-2 In litigation concerning the infringement of a patent right or exclusive license, where, upon the motion of a party, the court orders that an expert opinion be obtained for the calculation of damage arising from the act of infringement, the other party shall explain to the expert witness the matters necessary for the expert witness's expert opinion.

(Determination of reasonable damages)

Article 105-3 In litigation concerning the infringement of a patent right or exclusive license, where the court has determined that damage actually arose and where it is extremely difficult for the court, due to the nature of the facts, to prove the facts necessary to determine the amount of damage, the court may determine a reasonable amount of damage based on the entire import of oral argument and the result of the examination of evidence.

(Protective order)

Article 105-4 (1) In litigation concerning the infringement of a patent right or exclusive license, where there is prima-facie evidence of the fact that trade secrets (refers to trade secrets as provided in Article 2(6) of the Unfair Competition Prevention Act (Act No. 47 of 1993), the same shall apply hereinafter) possessed by a party satisfy all of the following paragraphs, the court may, upon a motion of the party, order by a ruling that the parties, etc., attorneys or assistants shall neither use the trade secrets for any purpose other than those for the proceedings of the litigation nor disclose the trade secrets to any person other than those who receive the order regarding the trade secrets under this provision; provided, however, that this shall not apply where the parties, etc., attorneys or assistants have, prior to the filing of the motion, already obtained or been in the possession of the trade secrets by a method other than by reading of the briefs under item (i) or through the examination or disclosure of evidence under the said item:

(i) where the trade secrets possessed by the party were or are contained in the briefs already submitted or to be submitted or such trade secrets were or are contained in the evidence already examined or to be examined (including documents disclosed under Article 105(3) and under Article 105-7(4)); and

(ii) where it is necessary to restrict the use or the disclosure of the trade secrets under the preceding paragraph to prevent any possible interference with the party's business activities based on the trade secrets, that might arise if the trade secrets are used for any purpose other than those for the proceedings of the litigation or if the said trade secrets are disclosed.

(2) A motion requesting the order under the preceding paragraph (hereinafter referred to as a "protective order") shall be made in writing specifying the following matters:

(i) the person(s) to whom the protective order is to be issued;

(ii) the facts that clearly identify the trade secrets to be protected by the protective order; and

(iii) the facts corresponding to the reasons each of the items in the preceding paragraph is applicable.

(3) Where the protective order is issued, a written ruling thereof shall be served to the person(s) to whom the protective order is issued.

(4) The protective order shall take effect as of the date the written ruling is served to the person(s) to whom the protective order is issued.

(5) The decision dismissing a motion requesting the protective order shall be subject to immediate appeal.

(Rescission of protective order)

Article 105-5 (1) A person(s) who has filed a motion requesting a protective order or to whom a protective order is issued may file a motion with the court where the record of a case(s) is maintained (or, in the case of no such court maintaining the record of a case(s), the court issuing the protective order), requesting the rescission of the protective order on the ground that the requirements as provided in Article 105-4(1) are not met or are no longer met.

(2) Where a decision on a motion requesting the rescission of a protective order is rendered, a written ruling thereof shall be served to the person who filed the motion and the adverse party in the case.

(3) The decision on a motion requesting the rescission of a protective order shall be subject to immediate appeal.

(4) A decision to the effect that a protective order is to be rescinded shall have no effect unless the decision becomes final and binding.

(5) Where a decision to the effect that a protective order is to be rescinded is rendered, the court shall immediately notify the person(s) who, in the litigation in which the said protective order was issued, received the protective order pertaining to the trade secrets who are neither the person filing the motion requesting the rescission of the protective order nor the adverse party, if any, of the fact that the decision to the effect that the protective order is to be rescinded was rendered.

(Notice, etc. of a request inspection of record, etc)

Article 105-6 (1) Where a ruling under Article 92(1) of the Code of Civil Procedure was rendered concerning the record of litigation in which a protective order was issued (excluding litigation in which all protective orders have been rescinded), where a party to whom the protective order was not issued in the litigation requests inspection etc. of a part of the record in which the confidential information is contained, etc under the said Article., immediately after the filing of the request, the court clerk shall notify the party who filed the motion (restricting access to the record) under the said Article (excluding the person who filed the request, the same in paragraph (3)) of the fact that the said request has been filed.

(2) In the case of the preceding paragraph, the court clerk shall not allow the person who filed the request to inspect etc. the part in which confidential information is contained under Article 92(1) of the Code of Civil Procedure before a lapse of two weeks from the date of filing of the said request (or, where a motion requesting a protective order is filed prior to the day in which two weeks have lapsed, against the person who filed the request, before the decision on the motion becomes final and binding).

(3) The preceding two paragraphs shall not apply where the consent of all the parties who filed a motion under Article 92(1) of the Code of Civil Procedure is obtained, allowing the person who filed a request under paragraph (1) to inspect etc. the part in which confidential information is contained.

(Ban on open examination of parties, etc.)

Article 105-7 (1) When a party, etc., to litigation concerning the infringement of a patent right or exclusive license is to be examined as a party to the litigation, as its statutory representative or as a witness, with regard to matters that will be a basis for the determination of the existence or non-existence of the said infringement, and such matters are trade secrets possessed by a party, the court may, by a ruling, elect to hold closed examinations of such matters where the court, upon the unanimous consent of all judges, finds that the parties, etc. will be unable to make sufficient statements regarding the matters due to the obvious fact that making statements regarding the matters at an open examination will significantly interfere with the business activities of the party based on such trade secrets and that, without such statements, a proper decision on the fact of the existence or non-existence of the infringement of a patent right or exclusive license that ought to be made based on the said matters may not be made based solely on other evidence.

(2) The court shall, in rendering the ruling as provided in the preceding paragraph, hear the opinions of the parties, etc. in advance.

(3) In the case of the preceding paragraph, where necessary, the court may cause the parties, etc., to present a document stating the gist of the matters to be stated. In such a case, no person may request the disclosure of the document presented.

(4) When the court finds it necessary to hear opinions by disclosing the document as provided in the latter sentence of the preceding paragraph, the court may disclose the document to the parties, etc., their attorneys or assistants.

(5) Where the examination on certain matters is to be closed under paragraph (1), the court shall declare such fact and reasons therefor prior to requiring the public to leave the court. Upon completion of the examination on the said matters, the court shall allow the public to re-enter the court.

(Measures to restore credibility)

Article 106 The court may, upon the request of a patentee or exclusive licensee, order the person(s) who harmed the business credibility of the patentee or exclusive licensee by intentionally or negligently infringing upon the patent right or exclusive license to take measures necessary to restore the business credibility of the patentee or exclusive licensee in lieu of or in addition to compensation for damages.

Section 3 Patent Fees

(Patent fees)

Article 107 (1) A person obtaining the registration establishing a patent right, or a patentee, shall pay as patent fees the amount specified in the right-hand column of the following table, corresponding to the relevant period in the left-hand column, for each patent registration and for each year from the date of the registration establishing the patent right to the expiration of the duration as provided in Article 67(1), (and, where the said duration is extended by Article 67(2), for such additional period):

(2) The preceding paragraph shall not apply to patent rights belonging to the State.

(3) Notwithstanding the provisions of paragraph (1), where a patent right is jointly owned by persons including the State and/or a person entitled to receive a reduction of the patent fees or exemption therefrom under Article 109 or the provisions of any other laws or ordinances (hereinafter referred to as a "reduction/exemption" in this paragraph), and the portion of their respective shares of the said patent right has been agreed, the patent fees payable under paragraph (1) shall be determined as the sum of the amounts calculated for each person other than the State jointly owning the patent right by multiplying the applicable patent fees as provided in paragraph (1) (in the case of a person receiving a reduction/exemption, the amount after the said reduction/exemption) by the ratio of the share of each person other than the State jointly owning the patent right, and, the persons other than the State shall pay such sum.

(4) For the amount of patent fees calculated under the preceding paragraph, fractional figures of less than ten yen shall be discarded.

(5) The payment of patent fees under paragraph (1) shall be made by patent revenue stamps as provided by Ordinance of the Ministry of Economy, Trade and Industry; provided, however, that where so provided by Ordinance of the Ministry of Economy, Trade and Industry, a cash payment thereof shall be accepted.

(Time limit for payment of patent fees)

Article 108 (1) The patent fees for each year from the first to the third year under Article 107(1) shall be paid in a lump sum within 30 days from the date on which a certified copy of the examiner's decision or the trial decision to the effect that the patent is to be granted has been served.

(2) The patent fees for each year from the fourth and subsequent years under Article 107(1) shall be paid by the end of the previous year; provided, however, that where the date on which a certified copy of the examiner's decision or the trial decision to the effect that the extension of the duration of the patent right is to be registered is served (hereinafter referred to in this paragraph as the "certified copy service date") is on or after the thirtieth day before the end of the year in which the duration of the patent right would have expired if the said extension of duration had not been registered, the patent fees for each year from the year following that year to the year in which the certified copy service date falls (or, in the case where a period from the certified copy service date to the last day of the year in which the certified copy service date falls is shorter than 30 days, the year following the year in which the certified copy service date falls) shall be paid in a lump sum within 30 days from the certified copy service date.

(3) The Commissioner of the Patent Office may, upon a request by a person by whom the patent fees are to be paid, extend the time limit under paragraph (1) by a period not exceeding 30 days.

(Reduction, exemption or deferment of patent fees)

Article 109 Where the Commissioner of the Patent Office recognizes a person who falls under any of the following paragraphs and meets the requirements of Cabinet Order to be recognized as a person with insufficient funds has difficulties paying the patent fees, the Commissioner of the Patent Office may, pursuant to the provisions of Cabinet Order, grant the person a reduction of, exemption from or deferment of the payment of the patent fees for each year from the first to the third year under Article 107(1):

- (i) the inventor of the patented invention or the inventor's heir;
- (ii) the employer, etc., who has succeeded the right to obtain a patent from the employee, etc., where the patented invention is an invention by the employee, etc., under Article 35(1) and there exists any provision of any contract, employment rules or any other stipulations providing in advance that the employer, etc. shall succeed the right to obtain a patent.

(Payment of patent fees by interested persons)

Article 110 (1) An interested person may pay the patent fees even against the will of the person by whom the patent fees are to be paid.

(2) The interested person who has paid the patent fees under the preceding paragraph may request the reimbursement of the expenses arising therefrom to the extent of the actual benefit obtained by the person by whom the patent fees were to be paid.

(Refund of patent fees)

Article 111 (1) The following patent fees shall be refunded upon the request of the person that paid them:

- (i) patent fees paid in error or in excess;
- (ii) patent fees for each year following the year in which a trial decision to the effect that the patent is to be invalidated has become final and binding; and
- (iii) patent fees for the year following the year in which a trial decision to the effect that the registration of extension of the duration of a patent right is to be invalidated became final and binding, and subsequent years (limited to those for the year following the year in which the duration of a patent right would have expired if the said extension of duration had not been registered, and subsequent years).

(2) A request for refund of patent fees under the preceding paragraph may not be filed after one year from the date of payment in the case of patent fees under item (i) above, or after six months from the date on which a trial decision became final and binding in the case of patent fees under items (ii) and (iii) above.

(Late payment of patent fees)

Article 112 (1) Where a patentee is unable to pay the patent fees within the time limit under Article 108(2) or the time limit for deferred payment under Article 109, the patentee may make a late payment of the patent fees after the expiration of the said time limit, but not later than 6 months following the expiration of the said time limit.

(2) The patentee who makes a late payment of the patent fees under the preceding paragraph shall pay, in addition to the patent fees to be paid under Article 107(1), a patent surcharge in the same amount as the patent fees.

(3) The payment of the patent surcharge under the preceding paragraph shall be made by patent revenue stamps as provided by Ordinance of the Ministry of Economy, Trade

and Industry; provided, however, that where so provided by Ordinance of the Ministry of Economy, Trade and Industry, a cash payment thereof shall be accepted.

(4) Where a patentee fails to pay, within the time limit for late payment of the patent fees under paragraph (1), the patent fees that were due and payable within the time limit as provided in the main clause of Article 108(2) and the patent surcharge under paragraph (2), the patent right shall be deemed to have been extinguished retroactively upon expiration of the time limit as provided in the main clause of Article 108(2).

(5) Where a patentee fails to pay, within the time limit for late payment of the patent fees under paragraph (1), the patent fees as provided in the proviso to Article 108(2) and the surcharge under paragraph (2), the patent right shall be deemed to have been extinguished retroactively upon the lapse of the year in which the duration of the patent right would have expired if the said extension of the duration had not been registered.

(Restoration of patent right by late payment of patent fees)

Article 112-2 (1) Where the original patentee of the patent right which was deemed to have been extinguished under Article 112(4) or 112(5), or which was deemed never to have existed under Article 112(6), was unable to pay the patent fees and the patent surcharge under paragraphs (4) to (6) of Article 112 within the time limit for late payment of the patent fees under Article 112(1), due to reasons not attributable to the original patentee, the original patentee may make a late payment of the patent fees and the surcharge within 14 days (where overseas resident, within two months) from the date on which the reasons ceased to exist, but not later than six months following the expiration of the said time limit.

(2) Where the patent fees and the surcharge are paid under the preceding paragraph, the patent right shall be deemed to have been maintained retroactively from the time of expiration of the time limit as provided in the main clause of Article 108(2) or the lapse of the year in which the day of the expiration of the duration of the patent right falls or existed from the beginning.

(Restriction on effect of restored patent right)

Article 112-3 (1) Where a patent right has been restored under paragraph (2) of the preceding Article, where the patent has been granted for the invention of a product, such patent right shall not be effective against the product which was imported into, produced or acquired within Japan after the lapse of the time limit during which the late payment of the patent fees is allowed under Article 112(1) but before the registration of the restoration of the patent right.

(2) A restored patent right under paragraph (2) of the preceding Article shall not be effective against the following acts conducted after the lapse of the time limit during which the late payment of the patent fees is allowed under Article 112(1) but before the registration of the restoration of the patent right:
